C | The Land Across the Border

Translate the text into Norwegian.

Hola! My name is Alejandro. I go to High School here in Nogales, which is in Sonora in Mexico. I live just by the border to the United States, and I really want to go there to study and maybe find a job. The schools here are all right, but not as good as in America and we have a lot of difficulties here in Mexico. Most of my fellow students share the same dream – to start a new life in the USA.
